

**Pescadero Fire Station 59
Construction Activity Update #1**

August 3, 2026

Dear Neighbor,

Construction of the new Pescadero Fire Station 59 has begun! We'll be sending regular updates to keep you informed of progress towards our new fire station at 340 Butano Cutoff Road, Pescadero.

Ongoing and upcoming project activities:

- Clearing, Grubbing, and Grading:
 - On June 15, the General Contractor, Truebeck Construction, began clearing and grubbing the site. Truebeck is now grading the site with work expected to continue through August.
- Ground Improvement:
 - On July 22, the ground improvement subcontractor, Condon Johnson, installed two large water tanks, which will hold water brought in from offsite, and a batch plant to support the ground improvement work needed to support the building foundation.
- Excavation:
 - In August, Condon Johnson will begin excavation of the new Fire Station foundation support system.

Construction activity updates and other project information will be available on the project website at <https://www.smcgov.org/publicworks/pescadero-fire-station-no-59>.

For inquiries related to this update, please contact the project team below:

- Edgar Lopez, Project Manager at c_lopez1@smcgov.org
- Kyle Angelini, Project Superintendent at (650) 339-9256 or kyle.angelini@truebeck.com.

Sincerely,

Edgar Lopez
