

Statement of Interest: Local Vendor Database

The Sewer Authority Mid-Coastside (SAM) has posted this Statement of Interest to compile a contact database of local businesses and organizations available to support SAM in preparing for, responding to, and recovering from potential storms and anticipated flooding impacts to SAM facilities resulting from the historic El Niño developing in the Pacific Ocean.

Forecasters expect El Niño conditions in the Pacific Ocean to strengthen through December, possibly fueling the strongest storm season in recorded history. Ahead of the potential impacts, Governor Newsom [proclaimed a state of emergency to begin mobilizing resources](#). The Governor's emergency proclamation directs state agencies to protect vulnerable communities, prepare critical infrastructure, stage emergency supplies, and help local partners reduce flood, landslide, and coastal risks.

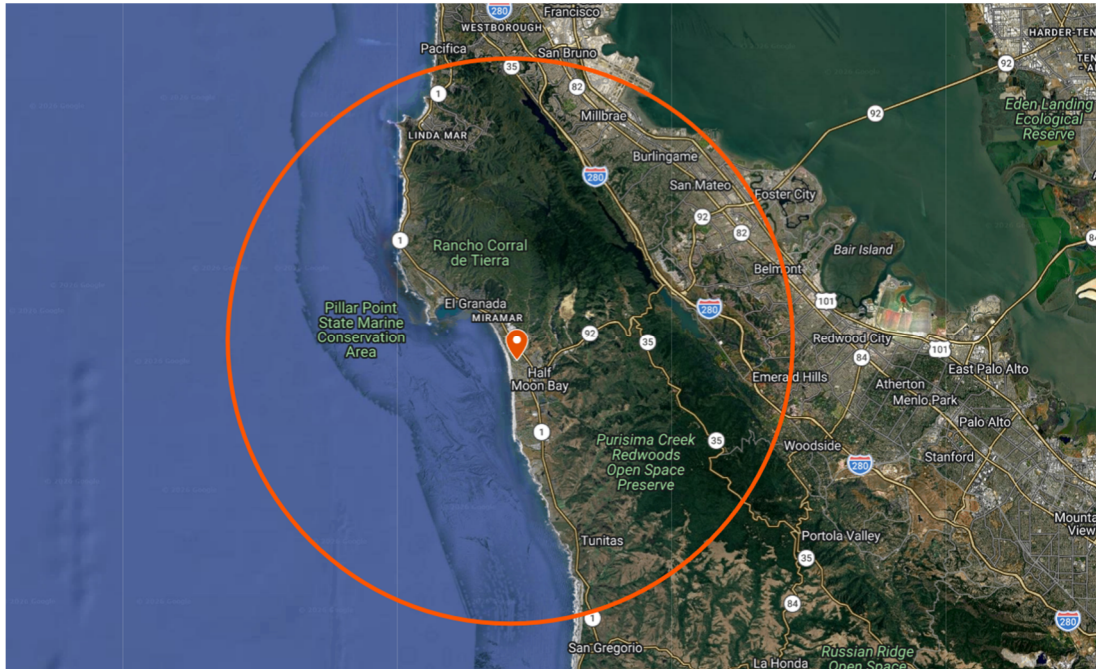

The SAM Wastewater Treatment Plant (WWTP), located just north of Half Moon Bay and west of Highway One, provides wastewater treatment for the City of Half Moon Bay, Granada Community Services District (GCSD), and Montara Water and Sanitary District (MWSD). More information on SAM can be found at samcleanswater.org

SAM is seeking local vendors to provide services and support in response to the Governor's emergency proclamation. A non-exhaustive list of vendor categories includes:

- Plumbers
- Mechanics
- Emergency extraction systems
- Mechanical and pump servicing
- Wastewater treatment operators
- Collection system operators
- Maintenance technicians
- Instrumentation technicians
- Site operations support
- Vegetation management
- Electrical services
- Painting services
- Hauling services

All vendors are expected to respond promptly if a state of emergency necessitates their aid. In such cases, vendors must act in a timely manner to ensure the health and safety of the approximately 30,000 people and coastal environment within the SAM service area.

For the purposes of this posting, “local” is defined as any legitimate business entity, operation, or organization with their headquarters or satellite office located within **10 miles** of the SAM WWTP, 1000 Cabrillo Hwy N, Half Moon Bay, CA 94019.

In order to be considered for inclusion in the contact database, vendors must comply with the requirements below and submit all requested information to Kishen Prathivadi, SAM General Manager:

Email: kishen@samcleanswater.org

Physical Address: 1000 Cabrillo Hwy N, Half Moon Bay, CA 94019

Submission Requirements:

1. Vendor's current contact information (name, phone, email, and local address)
2. Valid engineering and contractors' licenses, as required
3. Acknowledgement that all vendors are required to register with the California Department of Industrial Relations (DIR) and comply with all prevailing wage requirements
4. Three professional references (contact name, phone, and email)
5. Standard rate sheets may be included in vendor submissions, but will not be reviewed as part of this qualification process.

While there is no final due date for submissions, time is of the essence. Note that SAM is not obligated to utilize any business included on the list, and being listed does not guarantee work or compensation.

We appreciate your interest!
